

08. HRM Talent & Leadership Development - Gucci 2.0

1. Simulation overview

Simulation Title:

Gucci Group: Designing a Group-Level Leadership System across Luxury Brands

Description:

Design a group-wide leadership system at Gucci: define DNA, build 360°+coaching, and roll it out without diluting brands.

Background & Context

You've just joined **Group HR** at Gucci Group as a Group Global Organization Development (OD) Director. Nine iconic brands operate with high autonomy; Group HR's mandate is to **identify and develop talent** and **increase inter-brand mobility** while **supporting (not imposing on) brand DNA**.

Your Tasks (For Simulation Taker):

Architect a leadership system that (a) codifies the shared "Group DNA," (b) evaluates and grows leaders using a **360° feedback + coaching program**, and (c) cascades the model across regions without damaging brand identities.

AI ENVIRONMENT - AI Co-Worker

1. **AI Co-worker 1 - Gucci Group CEO:** hold insights about Gucci Group, its mission, company culture and NDA and can defend the Group DNA, direction for each brand autonomy vs. group needs.
2. **AI Co-worker 2 - Gucci Group CHRO:** provide direction about Group HR's mission
 - (a) identify and develop talent and
 - (b) increase inter-brand mobility while
 - (c) supporting (not imposing on) brand DNA.) and
 - the Competency Framework (Vision, Entrepreneurship, Passion, Trust)

3. AI Co-worker 3 - Employer Branding & Internal Communications Regional

Manager: who can share regional insights about the current status, specific status from the brand company regarding competency framework and potential training needs and challenges for rolling out the new competency and process.

2. Simulation Content: Modules, Tasks & Deliverables (Training Mode)

2.1 Module 1 — Frame the leadership problem & define “Group DNA” (35–45 min)

Ask

1. Write a **problem statement** balancing brand autonomy with Group needs (mobility, pipeline).
2. Talk to Gucci Group's CEO to gain more insights about the business, Mission, company culture and brand and group's DNA.
3. Talk to Gucci Group's CHRO for direction about Group HR's mission and the Competency Framework (Vision, Entrepreneurship, Passion, Trust) in order to craft a **first-pass competency model** (4 themes + behavior indicators by level) referencing **Vision, Entrepreneurship, Passion, Trust**.
4. Map **use cases** for the model (for example: recruitment, appraisal, development, mobility).

Inputs: Gucci context; brand list; examples of leadership behaviors.

Deliverables: 1-page problem statement; competency matrix (CSV) with 4 themes × 3 levels; 10-slide CEO pack.

Grounding: The case emphasizes the bespoke framework and the four headline themes.

- **AI Co-worker 1 - The CEO:** provides information, insights about Gucci Group, its mission, company culture and NDA. The CEO might also defend the Group DNA, and provide guidance to intern negotiate autonomy vs. group needs.

- **AI Co-worker 2 - Gucci Group CHRO:** provide direction about Group HR's mission
 - (a) identify and develop talent and
 - (b) increase inter-brand mobility while
 - (c) supporting (not imposing on) brand DNA.) and

- the Competency Framework (Vision, Entrepreneurship, Passion, Trust)

2.2 Module 2 — Design the 360° + coaching program (55–65 min)

Ask

1. Specify **instrument blueprint** (rater groups, scale, items per theme, anonymity rules, language coverage).
2. Draft **participant & rater journey** (comm' s, deadlines, consent, data privacy).
3. Outline **coaching program** (coach profile, session cadence, goals-to-habits plan).
4. Create **vendor plan**: build vs buy; benchmarking (e.g., CCL comparators); data security.
Deliverables: 5-page program spec; comms templates; sample 360° questionnaire section.
Grounding: Gucci ran a 360° program with **coaching**, tailored to the framework and benchmarked externally.

2.3 Module 3 — Cascade & measure adoption (30–40 min)

Ask

1. Talk to **Regional Employer Branding and Internal Communications Regional Manager** (Europe) for more regional insights and current status of the region in term of the team and identify the regional trainer's profile.
2. Build a **train-the-trainer rollout plan** across **brands/regions with workshop outline**.
3. Define **change risks** and mitigation (brand identity concerns, time pressure).
4. Construct a **measurement plan** (leading + lagging KPIs, insight reporting cadence, dashboards).
Deliverables: Rollout playbook (checklist + RACI); KPI table; sample exec insights page.
Grounding: Cascading via interactive workshops delivered by local HR is core to success; impact reporting captured organizational themes.

AI Co-worker 3 - Employer Branding & Internal Communications Regional

Manager: who can share regional insights about the current status, specific status from the brand company regarding competency framework and potential training needs and challenges for rolling out the new competency and process.

3. Appendix: Metadata (for CMS)

Field	Value
Industry	Retail Luxury Fashion & Retail (Luxury Goods) Sub-industry tags: Fashion & Leather Goods, Accessories, Jewelry, Fragrance/Beauty, Omnichannel
Sector	Leadership & Personal Development (primary); Business (secondary)
Function	HR / People & Culture
Role family	Talent & Leadership Development
Role	Leadership Development Program Manager - Organization Development Manager - Organization Development Specialist / Executive
Level	Associate / Mid / Senior
Mode	Training (multi-module) + Hiring/Assessment (timed).
Duration	Training: 3 modules, ~120–150 min total. Hiring: 45–60 min.
Primary skills (taxonomy)	Problem framing; stakeholder mapping & exec comms; competency model design; assessment design; program design; change management & cascade; measurement & insight reporting. (Maps to SOF specific skills.)
Outputs	Competency model (v1), 360° blueprint, coaching & change plan, pilot measurement plan, rollout plan, employer-readable artifacts.
Optional GenAI layer	AI “Competency Drafter,” AI “Feedback Synthesizer,” AI “Rollout Planner” to accelerate authoring themes.
